## **FLEXIBILITY**

Due to the two way operation (charter and regular flights) Bulgaria Air's fleet consists of variety of aircrafts with capacity of 108 to 180 Seats. Bulgaria Air has an aircraft for each type of client. Starting off with the Embraer 190 (108 Seats), Airbus 319 (140 Seats) and the largest Airbus 320 (180 Seats). This combination of various aircrafts and the two way operation (charter and regular flights) makes Bulgaria Air very flexible airline company that can always offer to its clients the product they need and want. Even during high season Bulgaria Air can react to the dynamic and rapidly changing environment, with swapping aircrafts from A320 to E90/A319 and vice a versa in accordance to the market trends and clients desires!
